

# Occupational Health & Safety

**Need assistance with your OH&S initiatives? Let Canada's most qualified team of OH&S professionals help you ensure that all your health & safety needs and obligations are met.**

Pinchin's Occupational Health and Safety team offers a multi-disciplinary approach made up of Certified Industrial Hygienists (CIH), Registered Occupational Hygienists (ROH), Professional Engineers, Canadian Registered Safety Professionals (CRSP) and other qualified technologists and laboratory staff to help you meet and manage your OH&S goals. We are also able to draw upon an even larger Pinchin team of related professionals, in areas such as air emissions and building — related hazardous materials. Whether it's working with you on a single project, or an ongoing program; we will help you make sense of the complex regulatory climate and take the worry out of OH&S.

## OH&S Management

Senior consulting staff are available to assist managers with:

- OH&S Policy & Program Development
- OH&S Auditing
- OH&S Management System Assessments
- Training Needs Assessments
- Compliance Plans
- Advisory Services to Management & Safety Committees

## Occupational Hygiene & Safety

Technical staff conduct hundreds of projects each year including:

- Air Monitoring Surveys
- Noise Monitoring Surveys
- Designated Substance Assessments
- Workwell Consulting
- Confined Space Consulting
  - Programs
  - Hazard Assessment
  - Plans/Permits/Procedures
- Illness Investigations
- Lighting Surveys
- MSDS & WHMIS Label Preparation
- Exposure Control Strategies
- Spill Response Plans
